

Evoked Therapy Programs at Entrada

announces the opening for the position of

Medical Coordinator

Katelyn BeVard (Program Director) will be accepting a cover letter and resume for this position

If you have questions or would like more information please contact Katelyn (katelyn@evoketherapy.com)

Evoked at Entrada is a leader in Wilderness Therapy for young adults and adolescents, located in Southern Utah. We are seeking a full-time experienced Registered Nurse (RN) and would prefer someone with experience in acute/urgent care as well as experience in psychotropic medications. This position will work cooperatively with our current Medical Director, but must be self-motivated and comfortable working independently. Effective communication skills and sound decision making is required.

Job Description:

- Provide medical training and support through weekly presentations and being on-call for field instructors who provide direct care of participants
- Perform medical check-ups for participants in the backcountry
- Manage prescription medications for dispensing to participants
- Consult and distribute all appropriate medical information to necessary parties involved with participant's treatment
- Work with the Admissions team and Medical Director to review and approve clients for admission medically
- Arrange necessary intake physicals and additional medical appointments for participants as needed

Qualifications:

- Have a BA or BS, or equal training or experience in a related field
- RN or higher
- Effective communication and decision making skills
- Experience in a managerial, programmatic leadership role helpful but not required.
- Experience in acute/urgent care and psychotropic medications preferred

Benefits:

- Salary commensurate with experience.
- Flexible office hours.
- A company phone and computer.
- Paid vacation.
- Health insurance.
- Life insurance.
- 401K plan (after one year of employment with Evoked Entrada).
